Always ahead.

Moorland View isn't just a care home; it's a technologically advanced environment. We utilise cutting-edge solutions like electronic care plans for personalised resident care and proxy medication ordering to save staff time spent on hold with GP surgeries.

Our commitment extends beyond efficiency. We were the first in Darwen to implement proxy medication ordering, empowering staff and minimising resident disruptions. Additionally, we were among the first to embrace digital initiatives with the NHS during the pandemic, some of which continue to benefit our residents, like virtual ward rounds for efficient communication.

Technology is an investment in both our residents and staff. By utilising innovative solutions, we empower our staff to deliver exceptional care while ensuring resident well-being. Discover a future-focused approach to care at Moorland View.
